Remarks/Arguments

The Notice of Non-Compliant Amendment mailed July 7, 2009 indicates that it is not clear in claim 1 whether the comma notation after SEQ ID NO: 1 in line 4 is an insertion or a deletion, and requires a marked-up version of the amended Figure 1A. The enclosed amendment revises claim 1 to provide brackets around the comma, instead of a line above the comma, to indicate a deletion.

Also enclosed is a marked-up version of Figure 1A. The marked-up version of Figure 1A denotes that a sequence identifier was provided for the LPXTG motif and that amino acid # 639 was changed to # 609.
